

# CO – OP 1

## Technique for raising aquatic objects

### EXPECTED LEARNING OUTCOMES (ELOs)

#### KNOWLEGES

- ELO 1** Apply mathematical, scientific, technical, social knowledge, and knowledge on contemporary issues in the field of Aquaculture
- ELO 2** Analyze data to conduct surveys and research in the field of Aquaculture
- ELO 3** Assess the quality of care, treatment, and health management of Aquaculture species
- ELO 4** Design the model of Aquaculture farming and seed production along the direction of clean production and ensuring safety food sources for human.

#### SKILLS

- ELO 5** Apply creative thinking, critical thinking, and problem solving skills in a variety of contexts.
- ELO 6** Work independently, lead the team, and manage the project towards its goals.
- ELO 7** Communicate effectively, understand cultural differences, read English documents in the field of Aquaculture
- ELO 8** Provide technical advice and business solutions in the field of Aquaculture to benefit stakeholders (producers, traders, communities).
- ELO 9** Use information technology and modern equipment of the Aquaculture sector effectively.

#### ATTITUDES

- ELO 10** Develop a professional work attitude, uphold professional ethics, demonstrate an awareness of environmental and human protection, love and protect animals.
- ELO 11** Demonstrate a spirit of entrepreneurship and life-long learning

### COURSE EXPECTED LEARNING OUTCOMES

Symbol	Expected learning outcomes of the module Complete this module, students made
<b>Knowledges</b>	
	Explain the steps in the process of raising aquatic species
<b>Skills</b>	
	Implementing steps in the process of raising aquatic species under the guidance of officials at the enterprise
<b>Attitudes</b>	
	Demonstrate a positive learning attitude.
	Demonstrate a spirit of love for a job.
	Demonstrating a sense of responsibility for careers, laboratory safety, environmental protection awareness and public health promotion.

#### RATING AND SCORING

Score scale: 10  
 In-house assessment: 50%, in-school evaluation: 50%  
 Number of credits: 6 credits (6 practice credits)  
 Semester 4 (Semester 2, 2nd year)

#### LEARNING CONTENT

- Chapter 1: Apply knowledge of the water environment to prepare and handle appropriate water quality issues for raising diverse aquatic objects.
- Chapter 2: Stocking in ponds
- Chapter 3: Implement feeding techniques, adjust the diet.
- Chapter 4: Implementing preventive and curative techniques

#### LEARNING METHODS

- Read materials, refer to relevant resources.
- Work in groups, organize and lead work groups to achieve their learning goals.
- Conduct experiential learning: observe, analyze, plan and implement learning activities to improve professional knowledge and practical skills under the guidance of staff at the enterprise, adjusted according to process of self-analysis of feedback and suggestions from instructors and staff at the business.

#### DUTIES OF STUDENTS

- Attendance: Students must attend 100% for practice.
- Preparation: Students must read relevant specialized materials provided by lecturers / staff and participate in direct manipulation.
- Attitude: follow the rules of the internship.
