LEARNING CONTENT

The content of the course consists of 6 chapters:

Chapter 1: Determination of ornamental fish environment

Chapter 2: Determining the popular aquarium fish

Chapter 3: Management and care of ornamental fish

Chapter 4: Production of ornamental fish

Chapter 5: Nursery

Chapter 6: Preventing and treating some diseases in ornamental fish

CREDITS AND SEMESTER

+ Number of credits: 4 credits (2 theory credits, 2 practice credits)

+ Semester: 7 (1st semester, 4th year)

LEARNING METHODS

+ Listening and answering questions

+ Reading documents and present results, comment, ask questions and evaluate.

+ Specialized report.

+ Observing and following lecturer.

+ Practicing designing and raising ornamental fish.

DUTIES OF STUDENTS

+ Attendance: Students must attend at least 80% for theory and 100% for practical.

+ Preparation for lectures: Students must read teaching materials and reference books provided by lecturers.

+ Attitude: actively participating in asking questions, exchanging, and marketing.

RATING AND SCORING

+ Score scale: 10

+ Process evaluation: 50% + Final exam: 50%
